

## Power Supplies

Universal AC/DC power supplies are available in different wattages depending on the power draw of each shelf. Simply add up the required wattage of each of the converters you plan to power, and purchase the power supply accordingly. Contact ShieldRock Sales, for more information. (sales@shieldrock.com)

## Types of Power Connectors

### ShieldRock

All converters from ShieldRock use a twist-lock barrel type power connector. Though a standard barrel connector will fit, the twist-lock is suggest. (P/N SRPWR-MDMBL)

### Decimator Design

Generally Decimator products use either a threaded-lock barrel or twist-lock barrel type power connector. The standard barrel connector will work in either case. (P/N SRPWR-MDMBA)

### Blackmagic Design

Mini-converters from Blackmagic use a standard barrel type power connector. (P/N SRPWR-MDMBA)

### AJA

The majority of mini-converters use a specific AJA D510PC power connector. (P/N SRPWR-MDAJ)
