

# RACK10

## Universal Shelf for Mini-Converters

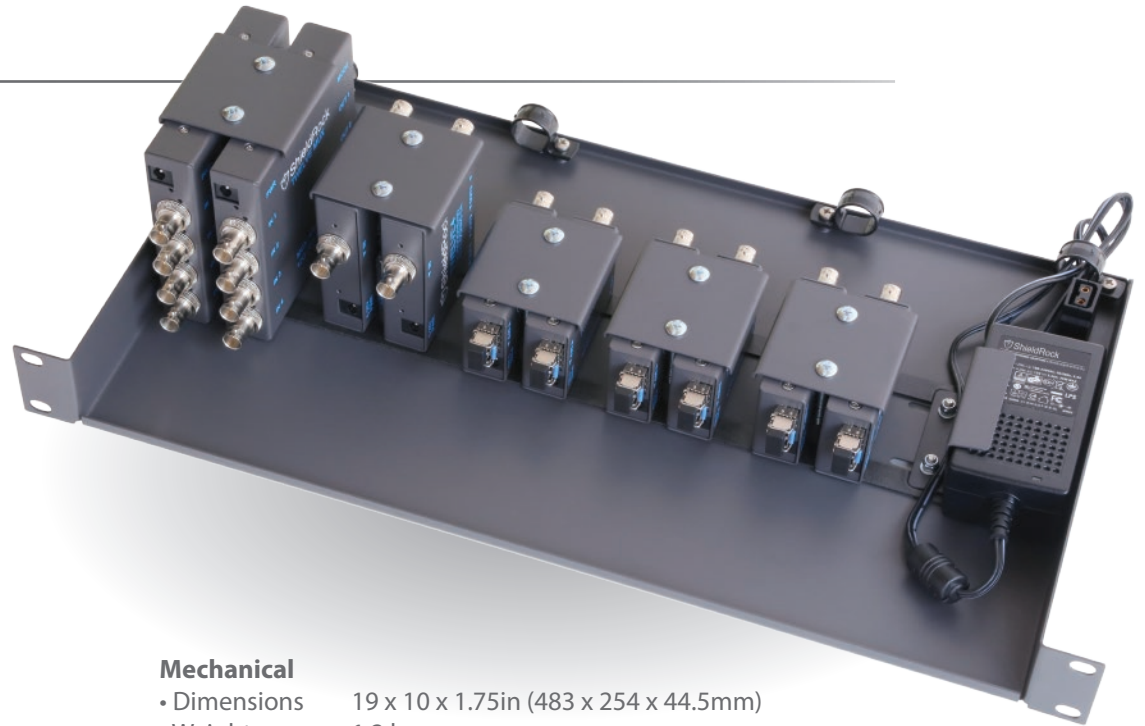

Rack-mount and distribute power for up to (10) converters per shelf, plus a power supply. The Rack10 fits into any standard 19" rack, taking-up 1U height for mounting. Scalable hardware is included for mounting many different sizes of mini-converters from ShieldRock as well as other manufacturers. The total rackmount height depends on the tallest converter mounted on the shelf.

### Included Hardware
